DETAILED ACTION

This Office Action is responsive to the Amendment filed on February 8, 2006. The Applicant has amended claim 1 and added new claim 10. However, Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, this action is made final.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Regarding claim 1, the phrase "outermost electrodes are negative electrodes" renders the claim indefinite because it is unclear whether the Applicant is referring to the outermost surface of the negative electrode collector as described in paragraph 36 of the specification.

4. Regarding claim 1, the phrase "outermost layer of electrode" and "outermost electrode" renders the claim indefinite because it is unclear whether the Applicant is referring to the outermost surface of the negative electrode collector.

5. Claim 1 recites the limitation "the outermost electrodes" in the last line. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 1745

6. Claim 10 recites the limitation "the negative electrode active material-containing layer" in the last line. There is insufficient antecedent basis for this limitation in the claim.

Response to Arguments

7. Applicant's arguments, filed 2/8/06, have been fully considered and are persuasive. The 35 USC 103 rejection of claims 1-9 has been withdrawn.
